BRAVE MAN FOILS BANDITS WILL REDUCE FOOD PRICES

Nerve of Passenger Causes Flight of Street Car Robbers and Their Subsequent Capture.

Los Angeles.—Two masked bandits boarded an inbound beach suburban car on the outskirts of Santa Monica shortly after 6 o'clock Wednesday night, and, after robbing twenty-two passengers and seriously wounding one of them, were routed and forced to flee by a single shot.

This shot wounded one of the robbers, and although he and his companion escaped in the brush, the wounded man was quickly captured by a sheriff's posse.

Reciprocity Agreement With Canada Expected to Result in Great Good to Americans.

Washington.—Within less than ten months after the initiation by President Taft of negotiations with the Canadian government there was laid simultaneously before the American congress at Washington and the Canadian parliament at Ottawa, on Thursday, a reciprocity arrangement which, if approved, will do much, in the opinion of the negotiators, to enlarge trade between the United States and Canada.

The arrangements do not take the form of a treaty, and considerable time will be saved in the consummation of the agreement, which can be made effective by a simple majority vote in each of the two legislatures.

The animating purpose of Secretary Knox appeared to have been to procure a reduction of the "high cost of living" by greatly enlarging the free list so far as it relates to foodstuffs coming from Canada.

On the other hand, he procured a notable abatement of duties on a number of American products consumed in Canada. Prominent among these is bituminous coal, which is now exported to Canada to the value of several million dollars annually. There is also a much better opening for American farm machinery and implements.

FAVORS QUICK ACTION.

"Identity of interests of the two peoples, linked together by race, language, political institutions and geographical proximity," the president gives as the chief reasons for such reciprocity as he recommends. PRISON FOR LABOR LEADERS

Supreme Court Declares Gompers, Mitchell and Morrison Must be Punished for Boycott.

Washington.—One year in jail for Samuel Gompers, president of the American Federation of Labor; nine months for John Mitchell, the vice-president, and six months for Frank Morrison, the secretary, were the sentences imposed on Friday by the United States supreme court in the celebrated contempt case. The great struggle between the American Federation and the Buck Stove and Range company, which ended in an adjustment of differences some months ago, had a strange and spectacular sequel in the highest court of the land.

The boycott case was thrown out of court because of the fact that the federation and the stove company had arrived at a peaceful understanding, but the supreme court found that the labor leaders were guilty in the contempt case and affirmed the sentence of the court below. The dramatic finale found the labor leaders apparently unprepared for the decision.

Alton B. Parker, counsel for the three chiefs of the federation, made a strong and able argument which grew eloquent at brief intervals when he defended the principal of freedom of the press.

The labor leaders, however, do not seem to think that they will ever go to jail. The other labor chiefs who are in Washington seem to be confident that none of the convicted men will ever serve out his sentence, although it is admitted that they may be compelled to spend a brief period in jail. An appeal will be made to President Taft.

VICTORY FOR BONILLA.

Insurgent Forces Seem to be Sweeping All Before Them.

Ceiba, Honduras.—The insurgents, who are active in the interior, on Friday captured Yoro, a city of 3,000 inhabitants and the most important place between this city and Tegucigalpa.

A concerted attack upon the capital from three sides is expected within the next few days.

General Francisco Guerrero, the government leader, who was killed in Wednesday's battle here, was buried Friday with military honors.

Thirty American bluejackets from the cruiser Marietta marched in the procession.

Nearly all the former members of the government garrison here are enrolled under the Bonilla banners and sympathizers are coming in every few hours to join the insurgent ranks.

TRAIN ROBBER CAPTURED.

Bold Desperado Meets His Match in Railway Employee.

Pueblo, Colo.—A lone bandit, who gave his name as Al Buckley, held up the passengers of a Colorado & Southern passenger train a few minutes after it left the union depot here Friday afternoon. After securing \$117 and some jewelry from the passengers he leaped from the train.

Special Agent William McCafferty of the Rio Grande happened to be on the train, and when he was informed that the bandit was at work in the rear coach he started back and reached the platform just in time to see the hold-up jump from the train and run. McCafferty followed and opened fire. Buckley returned the shots. In the fusillade Buckley was shot through the right wrist, and when his gun dropped from his hand he surrendered. All the money and valuables were recovered.

SEVEN YEARS OF MISERY

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."

—Mrs. DEMA BETHUNE, Sikeston, Mo.

FOR COUNTRY-WIDE MOVE

Foes of Tuberculosis Have Plan to Use Most Powerful Weapon on Earth.

April 30 has been set aside this year as "Tuberculosis Day," and will be observed in 200,000 churches in the country in a manner similar to that of "Tuberculosis Sunday" in 1910, when 40,000 sermons were preached on the prevention of tuberculosis. In the first official announcement of the occasion, made by the National Association for the Study and Prevention of Tuberculosis, the leaders of the movement state that they hope to enlist all of the 33,000,000 church members in the country.

In one respect Tuberculosis day will differ from Tuberculosis Sunday of 1910. Instead of requesting the churches to give to the tuberculosis cause a special Sunday service, the national association is going to ask this year that meetings, at which the subject of tuberculosis and its prevention can be discussed, be held on Sunday, April 30, or on any other day near that date, either in the week preceding or the week following. "What we want," says Mr. Livingston Farrand, executive secretary of the National Association for the Study and Prevention of Tuberculosis, in a citation for the study and prevention report on this movement, "is to have this whole subject of tuberculosis discussed in all of the 200,000 churches of the United States at as nearly the same time as possible."

EASY CHANGE

When Coffee is Doing Harm.

A lady writes from the land of cotton of the results of a four years' use of the food beverage—hot Postum.

"Ever since I can remember we had used coffee three times a day. It had a more or less injurious effect upon us all, and I myself suffered almost death from indigestion and nervousness caused by it.

"I know it was that, because when I would leave it off for a few days I would feel better. But it was hard to give it up, even though I realized how harmful it was to me.

"At last I found a perfectly easy way to make the change. Four years ago I abandoned the coffee habit and began to drink Postum, and I also influenced the rest of the family to do the same. Even the children are allowed to drink it freely as they do water. And it has done us all great good.

"I no longer suffer from indigestion, and my nerves are in admirable tone since I began to use Postum. We never use the old coffee any more.

"We appreciate Postum as a delightful and healthful beverage, which not only invigorates but supplies the best of nourishment as well." Name given by Postum Co., Battle Creek, Mich.
